Education

Florida State University — Bachelor of Science in Computer Science
Expected Graduation: December 2027
GPA: 3.58

Technical Skills

Languages: C#, C++, Python, HTML, CSS, JavaScript
Frameworks & Tools: ASP.NET Core, .NET, WPF, PyTorch, FastAPI, Git, GitHub, OpenAI API, Unity, Render, Visual Studio, VS Code
Concepts: Object-Oriented Programming, Data Structures, Algorithms, REST APIs, JSON, Machine Learning, Transformer Architectures

Projects

Course Pilot - AI Syllabus Assistant (C#, WPF, .NET, OpenAI API)

- Developed a desktop application that converts university syllabus PDFs into organized course dashboards.
- Integrated OpenAI's API to extract structured course information, exams, grading weights, and professor details.
- Added an AI chat assistant capable of answering questions using syllabus content with web search fallback.
- Implemented local data persistence, dynamic UI generation, and course management features.

ShakespeareGPT – Transformer Language Model (Python, PyTorch, FastAPI)

- Built and trained a 10.7M-parameter GPT-style Transformer from scratch using PyTorch, implementing multi-head causal self-attention and autoregressive text generation.
- Achieved a validation perplexity of 4.34 compared to 12.44 for a bigram baseline, demonstrating improved language modeling performance.
- Developed and deployed an interactive web application using FastAPI, JavaScript, and Render, enabling text generation through a cloud-hosted REST API.

Pixel Putt (C#, Unity, WebGL)

- Developed a 2D pixel-art mini-golf game in Unity featuring physics-based gameplay, collision detection, and interactive course environments.
- Implemented multiple themed courses, stroke tracking, scoring systems, achievements, and unlockable trophies.
- Built and deployed a browser-playable version using Unity WebGL, allowing users to access and play the game without installing additional software.

Relevant Coursework

- Data Structures
- Object-Oriented Programming
- Deep and Reinforcement Learning Fundamentals
- Computer Organization
- Software Development
